

Datenschutzerklärung über Registration Data

Bayern Connect GmbH - .bayern Registry Operator Privacy Policy

The below information shall inform you about our processing of personal data. Registrars are responsible for making this information available to the Registrants as well.

Controller, Contact, Data Protection Officer

ICANN, Registries and Registrars are joint controllers for data processing that is required to carry out domain name registrations, maintaining those including domain name transfers and trades, making the domain names resolve and making available information via the Whois service.

With respect to registration data, ICANN's role is establishing the policies on aspects including the collection and publication of data as well as to ensure that the system is secure, stable and resilient. ICANN contractually requires the Registrars to process personal data and enforces these contractual obligations, which - in part - are policies established by ICANN's multistakeholder community. ICANN also requires the contracted parties to submit reports regularly.

It is the Registrar's role to offer domain name registrations and potentially other services to the Registrants. According to ICANN's requirements, the registration data is collected by the Registrar and then transferred to the Registry.

The Registry's role is to maintain a central repository of all domain name registrations and to make these resolve via the Domain Name System (DNS). The Registry does not offer domain name registrations directly to registrants.

The data we collect

We ask the Registrars to collect data on the following contacts and transfer this data to us.

- Domain Name
- Nameservers
- Registrant Name
- Registrant Organization
- Registrant Street

- Registrant City
- Registrant Postal Code
- Registrant Province
- Registrant Country
- Registrant Phone
- Registrant Phone Ext
- Registrant Fax
- Registrant Fax Ext

The same data elements as for the Registrant apply to the Admin-C and Tech-C.

Legal Basis for the collection

The legal basis for the collection of personal information on these contacts is Art. 6 I b GDPR. For the Registrant, it is to perform the domain name registration, for the Admin-C and Tech-C it is the need to establish contact in case of administrative matters or technical issues.

When data of third parties is collected, e.g. where the Registrant, Admin-C or Tech-C is different from the person(s) the Registrar collects the data from, the Registrar is responsible for informing those third parties about the terms of this privacy policy.

Transfer of data to the Registry

We also ask the Registrar to transfer the data mentioned above to us. The legal basis for that is Art. 6 I b GDPR as far as the Admin-C data is concerned as we need to be able to validate the local presence requirement and Art. 6 I f GDPR since we have a legitimate interest in identifying and investigating patterns of illegal behavior, help with ownership disputes and to operate a central repository of owner data.

Processing of data by third parties

We will also pass on the data to an escrow agent as required by ICANN and the data might be transferred to an Emergency Backend Operator (EBERO) in case of Registry failure as well as to ICANN in the context of ICANN's contractual compliance work. In these cases, we act as data processors on behalf of ICANN as the data controller.

We are using a third party Registry Service Provider: Knipp Medien und Kommunikation GmbH, Technologiepark, Martin-Schmeißer-Weg 9, 44227 Dortmund (Germany)

Disclosure of data

We will not disclose personal data to third party apart from the domain name as such. Disclosure of personal data will only occur if there is an established legal basis for such disclosure based on a case-by-case assessment. The legal basis for such disclosure might be Art. 6 I b (in case of URDP and URS), Art. 6 I c (in case of requests by competent authorities) or Art. 6 I f (based on a legitimate third party interest).

In the absence of an accreditation model adopted by ICANN, all disclosure requests will be assessed individually.

Retention of data

Registration data is deleted without undue delay if and to the extent that the purpose of data collection has been reached resp. ceases to exist. The data processed by us will be deleted at the latest after expiry of statutory retention periods. We adhere to the requirements of Art. 17, 18 GDPR. If consent has been given for processing data, the data will be deleted immediately after receipt of an appropriate revocation.

Please note that ICANN requires us to retain data for a period of 2 years after the end of the domain name registration and we act as the data process on behalf of ICANN, the data controller, in that regard.

The following rights can be claimed against the controller:

- Right of access by the data subject, Art. 15 GDPR
- Right to rectification, Art. 16 GDPR
- Right to erasure ('right to be forgotten'), Art. 17 GDPR
- Right to restriction of processing, Art. 18 GDPR
- Right to data portability, Art. 20 GDPR
- Right to object, Art. 21 GDPR

The Registrant has the right to lodge a complaint with a supervisory authority about the processing of personal data by the controller.
